

Dear Hiring Manager,

I am Xiangyu Cui, commonly known as Andy Cui. It is with great enthusiasm that I share the completion of my Master's Degree in Artificial Intelligence from Northeastern University's Khoury College of Computer Sciences, achieved on December 17, 2023. With the conclusion of my academic pursuits, I am eager and ready to take on the professional challenges that lie ahead and am available to start work immediately.

I am actively seeking opportunities in Machine Learning or Data Science, as these disciplines resonate with my passions and academic focus. My entrepreneurial journey with Dutchgo LLC has sharpened my skills in product management and software design, providing me with the patience and communicative clarity necessary to demystify complex technical concepts for clients and stakeholders.

In addition to my technical acumen, I pride myself on my ability to cultivate strong collaborative relationships within a team. I am known for my unifying presence and look forward to contributing this dynamic to your esteemed organization.

My commitment to excellence is mirrored in my personal life, where snowboarding and fitness running play a significant role. These pursuits enable me to maintain focus and productivity, which are crucial in high-pressure work environments.

As an international graduate, I would require H1B sponsorship for employment in the United States. I am aware of the implications and am prepared to be flexible with salary expectations to accommodate this.

I am excited about the prospect of contributing my academic knowledge, professional experience, and personal drive to your company. I appreciate your consideration of my application and am looking forward to the opportunity to discuss how I can be an asset to your team.

Thank you for your time and consideration.

Sincerely,  
Andy Cui
